Board Studies Ban on Parking

Village streets — lighting, parking, and establishing a new street — were topics of discussion during the Dansville Board of Trustees committee meetings conducted Tuesday.

The topics were not acted upon by trustees but are to be presented at the regular Village Board meeting, possibly next Tuesday.

Mayor Michael Kane said the board talked of a proposal to eliminate all parking on village streets from Nov. 1 to Mar. 1 between the hours of 2 to 6 a.m. The proposal was presented by Police Chief Marc Vernam in a letter to Kane.

Vernam said he is "very strongly" recommending the off-street parking, mostly for snow removal purposes during the winter months.

He said that a recent survey indicates that only about four percent of the village residents are without driveways and would be affected by his proposal.

The police chief added that his recommendation does not include towing of vehicles unless it is "absolutely necessary," although police would have the authority to issue tickets for violations.

Kane said trustees opened discussion on the possibility of the purchase of the former Dansville and Mt. Morris Railroad right-of-way from Morse Street north to Maple Street and the north village line. Buying the property would open the possibility for a new street at some future date.

Trustees discussed installation of street lighting in the Crestwood Circle area off Gibson Street.
